

How it Works

Umps Personal Alarms are simple to use.

- 1 Press the button on your alarm.
- 2 An alert is raised based on your chosen response plan.
- 3 You will speak to a person through your personal alarm.

Response Plans

You choose who gets notified when you activate your personal alarm.

Professional Response Plan

A trained operator speaks with you and contacts family or emergency services.

Family Response Plan

Your family and friends receive alerts by text and phone call directly.

We keep pricing simple and transparent. Government funding may cover costs, and we'll help you find the right option. Visit our website or call us to learn more.

"I had a fall and was stuck in the bathroom. My personal alarm let me call for help and get an ambulance to take me to the hospital. This device truly saved my life."

– John J.
